Better be Ready Than Sorry !

"Have you thought of the difficulty you are going to have this year getting repairs for your machines? It is the most important thing for you to be thinking about right now. Your crops may depend upon it."

You, no doubt, realize that all manufacturers are hard put to it to get materials and transportation facilities, freight and express, are congested to such an extent that shipments come through very slowly now, and no doubt they will be slower by harvest time.

Every implement manufacturer and agent in Canada realizes this today, and the utmost is being done to take care of the farmers' requirements for repairs. Unless the farmers are also foresighted, many of them are likely to realize the difficulty too when the season for field work opens. They are going to be greatly handicapped if they wait until just before they are ready to use the machines before overhauling them and finding out what parts will have to be replaced.

We cannot urge you too strongly to get busy on this. Overhaul every machine on your place and see just what repairs you need to put them in good working order, then place your order at once. This is the only way you can be sure of having the new parts in time for use.

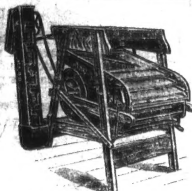

We are making every possible effort to get ample stocks of repair parts. International Harvester Branch Houses are located in all parts of Canada and they always carry large stocks of repairs. Under normal conditions you could expect quick action on repair orders sent to us, but at this time conditions are not normal and it is a personal and patriotic duty to look ahead and plan ahead and be prepared to avoid confusion and crop wasting delays.

Remember the first orders received are the first to be served so you can recognize the importance of overhauling your machine now and seeing what you will need and getting your order placed. Better be ready than sorry. Do it now.

Don't forget repair service when buying machines. The McCormick line offers best repair service in the world.

L. I. D. Crown, No 399

The new council of the above district met at the Adelphi Hotel on above date, there being present Jas. Sage, P. McLennan, R. M. Gibson, A. P. Rainforth, John Lockery and J. M. Douglas.

The secretary called the meeting to order, and asked the new councillors to select a chairman, whereupon it was moved by Gibson, seconded by McLennan, that J. M. Douglas be chairman. It was then moved by Douglas, seconded by Lockery, that Rainforth be chairman. On a vote being taken Douglas was elected, Gibson, McLennan, Sage and Rainforth voting for Douglas, Douglas and Lockery for Rainforth.

Moved by Gibson, seconded by Sage, that Secretary Treasurer's Salary for year be \$550.00.

Amended by Rainforth and Lockery, that the Salary be \$600 Motion Carried. Gibson, McLennan and Sage voted against amendment; Lockery and Rainforth for amendment. Douglas did not vote.

Moved by Gibson—McLennan, That the books of the District be kept in the town of Lacombe. Sage, Rainforth Lockery and Douglas voted against motion, which was lost.

Moved by Rainforth-Sage, That E. W. Simpson be offered the position of Secretary-Treasurer for 1918. Motion Carried. Gibson and McLennan voted against R. Walter Simpson.

Gibson—McLennan, that Secretary answer letter of Public Works department re railway crossing.

Rainforth—Sage That secretary be instructed to forward subscription fee of \$10 for Alberta

L.I.D. and Mun. Assn.' to J. McNeil. Carried.

McLennan—Rainforth. That Gibson be delegate to the convention of L.I.D. and Rural Municipalities, to be held in Edmonton. Carried.

Sage—Gibson, That McLennan be a delegate to Convention. Carried.

Gibson McLennan, That rate of taxation be 6¼ cents per acre. Carried.

Gibson Lockery, That by-law No.1 to borrow \$4000 be read 1st, 2nd and 3rd time. Carried. Rainforth—Lockery, That rate of wages be 30c. per hour for man and 20c. per hour for team. Carried.

McLennan Rainforth That secretary be instructed to pay the several parties acting as returning officers at the elections the sum of \$10 each, also to pay for the hire of schools and private houses at the rate of \$2.00 each day used. Carried.

Gibson—Sage, That secretary be instructed to notify the town of Lacombe to fill up the holes that were dug for the purpose of carrying power along the Edmonton trail to the Academy at once. Carried.

Gibson—McLennan, That secretary be instructed to pay R. Bailey the sum of \$15, being for land acquired for road purposes on 26-38 27 w-4. Carried.

Gibson—Sage, That secretary be instructed to find out the average of land taken for road purposes on N. W. 17-39-26, N. E. 14-41-25, and S. E. 23-41-25 all west 4th M. Carried.

Sage—Lockery, That the chairman and secretary be empowered to borrow \$1000 from the Merch-

ants bank to meet current expenses, the same to be charged as follows.

Div. No. 2—\$200.
Div. No. 3—300.
Div. No. 4—500.
Carried.

Douglas—McLennan, That the Public Works department be requested to survey road along the south side of S.E. 33-41-27, to connect the roads established between secs. 34/27 41-27-4, and road north through the centre of S. 3½ 33-41 27 also that an exchange of the four acres on north of S.E. 33-41 27 be made for the four acres on south of same quarter. Carried.

Douglas—McLennan, That two delegates to convention shall interview the Public Works Department regarding a blueprint of of district. Carried.

Gibson—Douglas, That councillor of each division be appointed a committee of one to dispose of by public auction all scrapers of undersize and worn out, the proceeds of same to be turned in to the secretary. Carried.

Rainforth Sage, That the labor pay sheets be passed amounting to \$137.50.

Gibson—McLennan, That secretary be instructed to make a copy of assessment roll of 1917, complete with all payments, the same to be deposited with the Merchants Bank or some other place, as a precaution against fire. Carried.

Gibson—Lockery, That the last quarter of secretary-treasurer's salary be ordered paid, also the account of the Northwest Financial Co. for \$7.50. Carried.

Sage—Lockery, That the meeting adjourn to March 18th, 1918.

BLACKFALDS NEWS

An unusually pretty wedding was solemnized at the home of Mr. and Mrs. J. G. McCullough, Blackfalds, Thursday, February 14th, when their daughter Greta Irene, was united in Marriage to Mr. Elmer A. Samsel, by Rev. Mr. Thompson.

Promptly at twelve o'clock the bride descended the stairs on the arm of her eldest brother, to the strains of Lohegrin's wedding march. She was attired in a dainty crepe-de-chene gown, with veil and orange blossoms. The groom wore the conventional black.

About thirty five guests witnessed the ceremony, after which all enjoyed a sumptuous repast, prepared by the brides' mother.

The happy couple left on the afternoon train for Calgary and Banff, followed by the good wishes of their many friends, the bride looking lovely in a French blue travelling suit, with hat to match and a beautiful set of furs.

The many beautiful and useful presents received indicate the esteem in which these popular young people are held in the community.

GREY NUNNERY BURNS
ON CHILDREN PERISH
Montreal, February 15—The lives of at least thirty eight tots were blighted last night shortly after eight o'clock by fire in the fifth or top story of the west wing

of the Grey nunnery, on Guy and Dorchester streets, and it is feared the loss will be greater. Thirty eight charred bodies were found by the firemen at 10:30, when the fire was under control, and it is known that while firemen and soldiers were engaged in rescuing infants they were forced to leave many to die as the smoke and flames drove the rescuers from the building. The property loss is not excessive as the blaze was practically kept to the one floor. The fire started near the tower, supposedly from the electric wiring. The top floor was used as a dormitory for the infants being cared for by nuns, and the lower part of the west wing was occupied by returned soldiers, sick and wounded.

BORN

REEVES—On February 14, 1918, to Mr. and Mrs. Duncan Reeves a daughter.

Children Like It

It is not an easy matter to get a medicine that children like, or to force them to take one they don't like. Most mothers know that a cough medicine, while pleasant to the taste, is a favorite with the mothers of young children.

Chamberlain's Cough Remedy is explained by the fact that it contains no opium or narcotic of any kind and at the same time it is so pleasant and agreeable to the taste that children like it. For this reason it is a favorite with the mothers of young children.

FRENCH CANADIANS

ARE NOT SLACKERS

New York, Feb.14—An Associated Press dispatch from Philadelphia this afternoon says:

Lady Leblanc, wife of the lieutenant governor, who was summoned to his bedside, protested against reports to the effect that her countrymen in Quebec should be classed as slackers because they opposed the draft law passed by the Canadian parliament. She said the French-Canadians objected to a law which they considered interfered with their rights.

For trade—Good modern house in Lacombe, Good locality. Will trade for farm. Jesse Fraser Agency.

ANNOUNCING

HILAIRE BELLOC

England's Famous War Critic and the Most Distinguished Military Commentator in the World.

Hilaire Belloc Will Cable an Exclusive Article to The Edmonton Journal Each Week.

READERS will be quick to appreciate what a splendid opportunity this affords to keep in close touch with the history - making moves and counter-moves that allied science and wealth are directing across war's mighty chess board. Hilaire Belloc reviews, interprets and foreshadows. First article appeared in the Journal on February 12th.

Why Take Adjustments?

BECAUSE:

THEY ARE SAFE;
PREVENT DISEASE;
RESTORE HEALTH;
SAVE OPERATIONS;

BECAUSE:

THEY ARE OF PROVED VALUE
MAKE YOU WELL;
COST YOU LITTLE;
INCONVENIENCE YOU NONE;

THE THEORY OF BRAIN CONTROL

Nervous energy, known also as mental impulse originates in the brain and follows nerve channels from thence via the spinal cord and over nerves leaving it, to every cell in the body. These trunks later divide, sending a nerve filament to every part. In this manner every living part is supplied by an individual fibre for each of its cells to give the brain control over it. Should any of these nerves become impinged at the spine, they would in that be rendered incapable for transmission of mental impulses. In that event, disease results in the part they reach and health is restored by releasing the impingement.

THE HARM IN CATHARTICS

Drugs affect nerves; for that purpose they are given. Astringents cause contraction of tissue. Tonics and stimulants excite action. Sedatives and narcotics lower functional activity by producing stupor. Diuretics, diaphoretics and expectorants stimulate certain nerves to overaction. A continued use of any one of these causes conditions which we name habits, to become fixed.

THE ADVANTAGE OF INVESTIGATION

In this age of progress our knowledge of things general needs to be of the serviceable kind. No man, in justice to himself, can afford to ignore the claims of something new, merely because it is new. When we arrive at a place where we refuse to investigate and reach our own conclusions we cease to be progressive and narrow down to an unstable plane of belief in the infallibility of the discoveries of a past age. Without intending to reflect discredit upon other methods of healing, our readers are requested to consider for themselves the merits of Chiropractic.

HEALTH RESTORATIVE

Other health systems have not as yet proved themselves so highly efficacious as to meet every situation with a remedy that will provide improvement. Where ever they have failed, the Chiropractor invites the opportunity to furnish a form of health service which we believe will afford prompt and permanent help. If you are suffering the effects of some disorder that tenaciously holds on in spite of your efforts to rid yourself of it, Chiropractic spinal adjustments will undoubtedly relieve you readily and soon permanently restore you to good health. Try them out.

THE FARM LABOR QUESTION

If the Allies need more food why are not steps made to get it? When the voluntary system of enlistment broke down the Government promptly adopted conscription and the country supported the action.

When additional revenues were demanded by the exigencies of war, taxes were imposed and the people have paid them without murmur or complaint.

The people have bought war bonds beyond the dreams of the most optimistic that funds might be forthcoming for war purposes.

Whatever has been needed for war has been freely taken.

It is only necessary to state these simple facts to give emphasis to the policy of drift and inaction on the part of the Government towards the question of farm labor.

The recent conference at Ottawa seems to have been quite abortive.

Hon. W. R. Motherwell Minister of Agriculture for Saskatchewan summing up the deliberations and conclusions of the conference said: "It is feared that the matter will be allowed to drift with the hope that the old go-as-you-please voluntary methods will suffice to fill."

If voluntary enlistment for the farm fails, then what?

If the government has any policy on the matter it should make it public without delay. We are getting well into February. Farmers are planning their spring operations, and farmers can go only as far as the limitations of labor will permit.

Leaving the farmer to get along as best he can, with such labor as he can get by some hook or crook, will never bring about a maximum of production.

Why does the Government fear to take drastic action to insure adequate supplies of farm labor? does it imagine that the people who supported it in the conscription of men for the trenches would not support it in the conscription of men for the farm furrow?

MOBILIZATION OF LABOR IS PLANNED

Ottawa, Feb. 13.—An official statement issued tonight reads: "The Canada food board is preparing plans for the mobilization of labor for spring seeding operations. On the basis of the information available for seeding, the production of crops in Canada, will largely depend. Men familiar with handling horses will be specially needed, and it is essential that they be secured to work on the land. For this reason employers of such labor in urban centres, especially merchants, will be well advised to at once consider the adoption of co-operative methods of delivery in order to free the labor needed capable of driving horses, and especially all those with farm experience."

AMERICAN DEAD IN TUSCANIA IS PLACED AT 267

Washington, Feb. 13.—With 267 American soldiers of the Tuscania known to be dead and buried on the Scottish coast, an official estimate today places the total loss of American troops 267. After eliminating from the passenger list the names of survivors and identified dead, and accounting for 33 unidentified dead, 166 soldiers still are not accounted for, and it is believed they were lost.

Praise for efficient co-operation by the British war office in the rescue of the survivors of the Tuscania is given by General Pershing in a cablegram received today at the war department. The Y. M. C. A. and the Red Cross are cited for valuable assistance.

WESTERN SHIPPERS ASK GOVERNMENT TO TAKE OVER ROADS

Ottawa, Feb. 13.—The government has received the written argument of the Shipper's Section of the Winnipeg board of trade in connection with the decision of the railway board recommending an increase in freight and passenger rates.

The Western shippers assert that under no circumstances will they consent to any settlement of the railway problem involving an increase in rates. "We are convinced," the document goes on to say, "that the government control and operation should be carried into effect at the earliest possible date. We declare our firm belief that the financial troubles responsible for casualties among railway companies in Canada can be relieved only by the application of organic treatment.

This policy may seem radical and rigorous at first glance, but we are fortified by the example of Great Britain and the United States. It has been said that in every

ONLY MEDICINE MADE FROM FRUIT

Extraordinary Success which "Fruit-a-lives" Has Achieved

One reason why "Fruit-a-lives" is so extraordinarily successful in giving relief to those suffering with Constipation, Tropical Liver, Chronic Headaches, Neuritis, Kidney and Bladder Troubles, Rheumatism, Pain in the Back, Sciatica and other Skin Affections, is, because it is the only medicine in the world made from fruit juices.

It is composed of the medicinal principles found in apples, oranges, figs and prunes, together with the nerve tonics and antispasmodics of proven value.

Box, a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

country except Canada, now engaged in active warfare, the railways are under control and operation of the state and we have no reason to doubt that assertion.

Transportation is, in our opinion, as important a factor in the prosecution of the war as recruiting, the supply of munitions or any other element that engages the attention of the military authorities. Viewed from that standpoint alone, the step we advocate has abundant justification.

DOZEN EGGS MUST WEIGH POUND AND HALF; HENS WORRY

Ottawa, Feb. 13.—It was stated that the approaching session of parliament, the Sales and Inspection act will be amended so to provide that a dozen eggs must weigh a pound and a half. It is also proposed to make the standard cord of wood 128 cubic feet.

BOLO PASHA MUST DIE TRAITOR'S DEATH

Paris, Feb. 14.—Bolo Pasha has been sentenced to death. The court-martial which condemned Bolo Pasha to death, deliberated for only twenty minutes.

Darius Porchere, an accountant who was a co-defendant, was sentenced to three years' imprisonment.

Filippo Cavallini, another co-defendant, who is under arrest in Italy, was sentenced to death, although he is not within the court's jurisdiction.

SUSPICION IN GERMANY OF RUSSIAN MOVE

Amsterdam, Feb. 14.—Judging from the latest indications in the German press, the Russian demobilization and suspicion has been aroused by the latest move of Foreign Minister Trotzky. Important political and military leaders are said to be conferring busily to find the best solution to the puzzle.

The Kreuz Zeitung, of Berlin, on Tuesday declared "on reliable information" that Trotzky's proposal is in no circumstances to be regarded as a peace offer, while it is pointed out by other papers that the Russian war theatre was mentioned especially in the official army report on Tuesday. A Berlin telegram to the Koelnische Volks Zeitung on Wednesday says: "The government is not willing to continue relations with Russia unless the present Russian Government signs a regular peace treaty."

As, however, it must be reckoned for the present at any rate that Trotzky does not think of signing any formulated peace declaration a situation is created which makes necessary a thorough discussion between the government and the supreme army command.

No More Negotiations

The correspondent in an apparently inspired passage adds: "The chancellor is resolved under no circumstances to conduct further negotiations in any neutral centre and it will be the affair of the central powers to determine where such negotiations may best be held. The call of the economic commission from Petrograd is under consideration."

"On the other hand, it is evidently realized that the question of the big army of Austro-German prisoners of war in Russian territory still controlled by Petrograd cannot be overlooked."

A telegram from Vienna says: "It is pointed out in well-informed quarters that the confusion and uncertainty of the internal conditions in Russia demand that the central powers adopt a cautious and waiting attitude and that in spite of the absence of a formal conclusion of peace, there be no hindrance to the exchange of prisoners."

Order Cancelled

BOLSHEVIKI GIVE OUT STATEMENT OF PEACE AIMS

London, Feb. 12.—The Bolsheviki statement of Russia's peace terms is as follows:

"Peace negotiations are at an end. The German capitalists, bankers and landowners, supported by the silent co-operation of the English and French bourgeoisie submitted to our comrades, members of the peace delegation at Brest-Litovsk, conditions such as could not be subscribed to by the Russian revolution.

"The governments of Germany and Austria possess countries and peoples vanquished by force of arms. To this authority, the Russian people, workmen and peasants could not give its approval. We could not sign a peace which would bring with it sadness, opposition and suffering to millions of workmen and peasants.

Refuse to Fight

"We are not signing a peace of landlords and capitalists. Let the German and Austrian Soldiers know who are placing them in the field of battle and let them know for what they are struggling. Let them know also that we refuse to fight against them.

"Our delegation fully conscious of our responsibility before the Russian people and the oppressed workers and peasants of other countries, declared on Feb 10th, in the name of the council of the people, commissioners of the government of the federal Russian republic, to the governments of the peoples involved in the war with us and of neutral countries, that it refused to sign an annexation treaty. Russia, for its part, declares the present war with Germany and Austria Hungary, Turkey and Bulgaria at an end.

"Simultaneously, the Russian troops received an order for complete demobilization on all fronts."

War at End

"In connection with this statement, an order has also been issued that necessary steps be taken immediately for declaring to the troops that the war with Germany Austria, Turkey and Bulgaria, is regarded from the present moment as being at an end. This order bears no signature, but says:

"No military operations must again take place. The beginning of a general demobilization on all fronts is decreed. I order the issue of instructions on the fronts of the withdrawal of troops from the first lines and for their concentration in the rear and further for their dispatch to the interior of Russia, in accordance with the general plan for demobilization. For the defence of the frontier some detachments of younger soldiers must be left.

Must Remain Calm

"I beg the Russian comrades to remain calm and await with patience the moment of the return of each detachment to its home in its turn. I beg that no effort be spared to bring into the stores all military and all other military equipment which cost millions of the people's money.

"Remember that only systematic mobilization can be carried out in the shortest time and that systematic demobilization alone can prevent interference with the sending of food supplies to detachments which remain for a certain period on the front."

**GOVERNMENT TO
AID FARMERS IN
USING TRACTORS**

Ottawa, Feb. 12.—The government has purchased 1,000 Ford tractors at cost. They will be sold to Canadian farmers also at cost, plus freight. Details of freight costs have not yet been worked out but it is estimated that the average cost to the farmer, including freight will be about \$800. In addition the government has secured options on another thousand of the Ford tractors.

The Ford tractor has not so far been supplied to any private individual. The Ford factories are now engaged on an order of some thousands of new tractors for the British Government. When that order is completed, probably by the end of March, delivery in Canada will begin.

Purchases were completed for Canada after tests made of the tractors by Hon. C. A. Dunning, of Regina, Sask. and J. D. McGregor of Winnipeg, representing the minister of agriculture. Both Mr. Dunning and Mr. McGregor express themselves as fully satisfied with the work of the tractor and are convinced of its practicality.

The tractor burns either kerosene or gasoline. It is designed as a two plow machine. A fuel consumption of 2½ gallons of kerosene per acre is regarded as a fair average. It is claimed for the tractor that it can plow an average of 8 acres in 10 hours. The plowing

speed is given at 2½ miles per hour.

Conditions of sale will be for cash only. The scheme of distribution still remains to be worked out in detail. In all probability, however orders will be placed through the provincial departments of agriculture.

27,000 FAMILIES OF CANADIAN SOLDIERS EATING ARMIES FOOD

London, Feb. 13.—The military authorities strongly desire that all Canadian women should return to the Dominion unless definitely employed in war work. The quartermaster-general's department supplies soldier's families with rations against counterpayment but this is seriously affecting their resources. The number drawing supplies now reaches 27,000 families. The London depot is shortly being opened for families here. They are consuming army supplies required for other purposes and their presence, under existing circumstances, is hampering the authorities.

There has been some difficulty in arranging passages for those desiring to return to Canada but this is now being overcome. The food situation here has certainly become more acute and the military must first consider the requirements of the troops. Families remaining will find themselves in an awkward fix here when peace is declared. They will probably find it impossible to return to Canada for a year owing to the entire shipping being taken for returning troops.

CAMERON—SHEETS

In the Methodist Parsonage, on Monday, February 11th, by Rev. Edward S. Bishop, Miss Sarah M. Cameron was united in marriage to Mr. Geo. Sheets, both of Lacombe. Mr. and Mrs. Sheets intend to return in a few days to the farm of the former, west of Lacombe. Red Deer News.

Farm Land listings wanted in all parts of the Lacombe district. Ingalls and Cameron, Royal Bank Building.

The Ford Saves the Hay and Oats the Horses Eat

IT HAS been estimated that five acres of land are required to maintain one horse for a year, and that the same five acres would produce nearly enough food for two people. If 50,000 Canadian farmers each replaced one horse with a Ford, 250,000 acres would be added to the Nation's source of food supply and enough extra food made available to feed 100,000 people.

Just think what a great service this means to the country at the present time and the benefit to the farmers from the sale of food produced on this acreage.

A Ford car also saves the farmer a week or more of valuable time each year, which can be used for further productive work. The Ford travels three times as fast as a horse and rig—costs less to run and keep, and is far easier to take care of. With labor so scarce and high priced, time means money, so do not delay in getting your Ford.

H. A. Kennedy, Owner.

Jesse Fraser, Clerk.

MANY CLERKS ARE AFFECTED BY THE NEW REGULATION

Ottawa, Feb. 13.—From thirty to forty thousand clerks are affected by the new regulations governing appointments to the civil service. Hitherto many departments have engaged their temporary clerks without reference to the commission, more especially the new branches with business arising out of the war, but in future the military and finance departments clerical staffs, the Military Hospital Commission, The War Purchasing Commission, the Canada Food Board and the new Soldier's Settlement Board, and all other branches must obtain their clerks from the same central employment bureau.

Will Advise

In the case of professional and technical positions the commission will advertise as a general rule, but if competition is considered impracticable it will rest with the commission, not with the department, to decide this point and to exempt the position. Inasmuch as promotions, also both in the outside and inside service, rest with the commission under the new regulations, this, it is stated, will eliminate political pressure in connection with the advancement of public officials now in the service. Immediately upon the passing of the order-in-council by which all patronage is eliminated from appointments to the civil service, the Civil Service Commission proceeded to avail itself of the new powers that have been vested in it.

Sends a Letter

The chairman of the commission addressed a letter to each deputy minister calling attention to the co-operation of heads of departments in giving effect to the provisions. It is noted that some difficulty may be experienced at first in meeting the needs of the departments promptly as they arise, but it is hoped that as a better class of clerks is furnished, the need of extra assistance will gradually be decreased.

"When the incentive to distribute patronage is removed," the letter continues, "it will be found that fewer clerks are required to carry on the work of the department."

GOVERNMENT ALMOST CERTAIN TO TAKE OVER GRAND TRUNK SYSTEM

Ottawa, Ont. Feb. 13.—The belief is growing at the capital that the government will take over the Grand Trunk and Grand Trunk Pacific and operate these with the Canadian Northern and the Inter-

colonial with other public owned railways through the Railway war board. The C.P.R. will be left as a privately owned line, competing with the government lines and under more control than at present. The sub-committee of the cabinet had a long session last night on the subject and very shortly will be in a position to make a recommendation to the privy council. While nothing definite has been settled, those best informed at the capital believe that this will be the ultimate solution.

Question of Rates

The question of whether there should be an increase in freight rates is also not yet settled. The Grand Trunk and C.N.R. are going behind so fast that increased freight rates are a necessity unless the government meets enormous deficits. Whether the public pays the bills through increased freight rates or out of the public treasury is a question which must be settled. If the freight rates are increased it is likely an extra tax will take all excess earnings resulting from the increased passenger and freight rates.

ALBERTA WOMEN'S INSTITUTES

The Women's Institutes of Alberta are holding convention in Edmonton, March 6th, 7th and 8th at the Macdonald Hotel, and it is expected that there will be about eight hundred delegates present.

A very interesting programme has been planned including some of our leading women speakers of the day among them being Mrs. Nellie MacLung, Mrs. Arthur Murphy, Edmonton; Dr. Helen MacMurely, Toronto; Miss Hazel Winter, Superintendent of Institute in New Brunswick; Lieut. Roberta McAdams, M.P., for overseas, Miss Jean Muldrew, director of domestic science in the Food Controller's Department.

Owing to the high rate of infant mortality in Alberta the slogan for the Alberta Institutes this year is "Save The Babies." Ways and means of perpetuating this campaign will be discussed.

There will also be other rural problems discussed and it is hoped that the convention will have definite results in making the life of the rural woman as satisfying as that of her sister in the city.

All the delegates and members attending the convention are requested to purchase a single fare ticket to Edmonton and obtain from the ticket agent at the starting points "Standard Certificate."

MAXWELL

Most Miles per Gallon

Most Miles on Tires

\$1045

F. O. B. WINDSOR

With the accuracy of a scientific instrument—or a calculation in mathematics—the Maxwell Motor Company, Limited, has BALANCED the price of its car.

That balancing of the Maxwell price means that:

While materials cost what they do now, the Maxwell Company finds, it is impossible to build, and sell for less than \$1045, any motor car in which efficiency, durability, economy, comfort, beauty and standard equipment are all present, as they are present in Maxwell.

On the other hand, these being co-ordinated in the Maxwell, all you could get by paying more money for a motor car would be either larger size or greater luxury of furnishings.

In other words, the Maxwell is built and sold on the MIDDLE LINE of real value.

This finding of the Maxwell builders is based on the lessons learned in many years of production on a vast scale.

We believe it to be scientifically—absolutely—correct.

BOODE & MACONNACHIE

Lacombe

GOOD RESULTS

More than thirty thousand men have already been added to the Canadian overseas army as a result of the Military Service act in operation. This does not mean that the full number of men available in Class 1 has been secured. As a matter of fact there are many thousands of appeals for and against exemptions yet to be heard by the judges, and when these have been decided there will be a very considerable addition to the total.

When the call was first made the authorities were of the opinion that all the men needed would be secured in Class 1. Nearly half the total of men required under the act have joined the army since Sept. 1 last, either by draft or voluntarily. It is possible that 100,000 aimed at will not be secured by the first call, owing to the fact that for the purposes of greater production many of the available men in Class 1 are being exempted for farm and other essential production work. There can be no objection taken to that.

Premier Borden announces that there has been no talk of making a call upon second class men—married men and widowers with children between the ages of 20 and 45. In our judgement it would be just as well if this class were left uncalled until the third class has been drafted, should there be need for another call at all. In the third class are single and widowers without children between the ages of 35 and 45. It seems only reasonable that these men should be called before any fathers of families of the second class.

Meanwhile it is good to hear from the Canadian Press correspondent with the armies at the front that the Canadian forces in Flanders and elsewhere are now stronger than ever before as a result of the operation of the Military Service act. This is as it should be and the fact that it is so justifies the action of the country in endorsing compulsory service. All that is needed now is strict and impartial enforcement of the compulsory service act, which we believe will be given.

KAISER'S INFLUENCE HAS DISAPPEARED
WAR PARTY RULES

Zurich, Switzerland, Feb. 14—Indicating Germany's thoroughness, she will no longer let corpses to be buried with their clothes. They must be placed in pasteboard caskets and clothed in paper shrouds or wrapped in paper sheets. No linen, cotton, or woolen material must be wasted in graves, while copper, zinc, lead and other metal caskets are generally forbidden.

An American woman, just leaving Germany, declares all ordinary articles are so scarce that sale of her worn out kitchen utensils brought unheard of prices. This woman says the coal shortage is far more acute than outsiders imagine.

Freight Cars Are Scarce

This is not due to the lack of coal but to labor shortage plus transportation difficulties. Scarcity of cars has caused the military officials to reduce their train to little more than sufficient for the army's needs. Rolling stock is in frightful repair.

Silver and nickel have been demonetized. All gold including jewelry formerly requested "in the name of patriotism" is now demanded by the government to keep up gold coinage and prevent too rapid decline in the value of paper money.

The people no longer expect victory this woman says. The best they hope for is the exhaustion of the Allies before Germany is compelled to sue for peace. The masses have been told so often that the next offensive would bring immediate peace that they are beginning to feel duped and angry.

Kaiser Has No Influence

I understand President Wilson's speech made a deep impression in Germany and probably will bear future fruit. On most reliable authority I learn the Kaiser's terms were reasonable enough to form the basis of negotiations. Wilhelm however is without influence. I am told that while openly opposed to the extremes to which the operations of the war party are leading he does not murmur as Hindenburg and Ludendorff are his absolute masters.

An American girl recently arrived from Germany, says many children and even grown ups are now going barefooted. Being unable to buy shoes. A proud professor of the University of Leipzig asked as a favor to be allowed to buy the discarded shoes of this girl's brother.

Great Wave of Crime

A crime wave is sweeping the country from one end to the other. Thugs often rob pedestrians of

their clothes; children are robbed of their shoes while on the way home from school. The weather is bitterly cold and the children arrive with their feet nearly frozen and bleeding. This girl says the newspapers are most active in sneering at America. Every effort is made to diminish before the masses the value of United States participation in the war. They are constantly saying America is all bluff and noise. Worth of the country which produced Barium. This girl had the utmost difficulty in leaving Germany. She was about to receive a degree at the University of Leipzig when America entered the war. The degree was withheld.

SUBMARINE LOSSES
TWICE AS GREAT
AS PRODUCTION

Washington, Feb. 13.—Ship tonnage sunk by submarines in 1917 was nearly three times as great as the total of production in the United States and Great Britain during that year.

This was disclosed by the announcement of Andrew Bonar Law, chancellor of the exchequer, in the British House of Commons, that Great Britain produced 1,163,174 tons of shipping last year. The output in the United States was 901,223 tons, making a total combined tonnage of 2,064,607, while sinkings by submarines last year generally and reckoned at 6,000,000 tons.

While complete figures on construction in Japan, Italy, France and other nations in 1917 are not yet available, officials here do not believe their aggregate equaled the total of the United States. It is the cost of submarine sinkings more than doubled all new tonnage produced.

GOVERNMENT CONSIDERING
QUESTION OF FURTHER
DRAFTING FOR ARMY

Ottawa, Feb. 14—Steps to be taken to secure additional reinforcements under the Military Service Act are now under consideration. The government, it is officially indicated has not as yet reached a definite decision as to the calling out of any further class or sub-class. In the meantime every effort is being made to increase the number of men available in Class 1. Representations have been made to the appeal tribunals to dispose of pending claims at as early a date as possible.

Should it be decided to call out further men it is emphasized here, the aim would be to secure merely those who could be drafted into the army without interfering with the production of essentials or causing undue domestic hardship. Under the terms of the Military Service Act the government is empowered to divide any class into sub-classes. But it is laid down that the sub-classes shall be called out in order of age, beginning with the youngest.

H. A. BROWNLOW'S
PUBLIC SALE

Having received instructions from the owner, Mr. H. A. Brownlow, I will sell by public auction at his farm 1 mile east and 1 mile north of Bentley, the following described livestock, farm implements, household furniture, tools, etc.

LACOMBE, ALBERTA

Nelson Gourlay will furnish the music at the Rex on Thursday evening, Red Cross evening.

Hosmer's Guaranteed-Harness Oil. Bring in your harness for repairs and oiling before the rush. W. L. Elliott.

Remember the St. John's Ambulance tea on Saturday, 23rd in D. Cameron's Store, next post office. Proceeds for comforts for our boys in the trenches.

W. L. Elliott's in the home of all pure stock foods, chicken spice, louse killers and grow fast calf meal, the prize winner for little pigs and young colts.

The St. John's Ambulance Association desires to thank Mrs. Collier and Mrs. Milliken for the \$500 benefit given by them in aid of the Society. The sum realized was \$23.30.

Condition your hens—produce eggs—by using Pan-a-see, Oyster Shell, Grit, Ground Green Bone Meal, Meat meal and Charcoal. At W. L. Elliott's.

Spectacle case lost in Lacombe on Tuesday night between Presbyterian and Methodist churches. Finder please leave at the Globe office.

St. John's Ambulance will meet at Mrs. Findlayson's on Tuesday evening, 26th inst.

An exceptionally attractive sale is announced for Thursday, March 7th, when the whole of Mr. H. A. Kennedy's livestock and equipment will be disposed of. The farm is two miles north of Lacombe. The full list will be advertised in this paper.

Morris and Blanche Tees are after their share of the five hundred dollar prizes offered by the Lacombe Agricultural Society in the Calf Feeding competition and have two pretty animals in hand. The calves were purchased from R. L. Tracy, and if they do not take the high money it will not be the fault of the youngsters. Every farmer in the district should see that their children have an entry in this competition, and now is the time to start fitting the animals up.

The chairman of the Halifax relief committee acknowledges with thanks the donation of \$50, from Teddy Goldring, and says, "I wish you would express to this little fellow our sincere thanks for his donation, which I am sure meant a real sacrifice to him."

W. F. Graham wishes to acknowledge with thanks the donation of \$53.00 for the Halifax Relief Fund, from the Bentley and Blindman Valley District, per A. D. Miller of Bentley.

A Soldier's Strength

Every enlisted man would stand up stronger and resist much sickness if he could have the benefits of

SCOTT'S EMULSION

because it fortifies the lungs and throat, creates strength to avoid gripe and pneumonia and makes rich blood to avert rheumatic tendencies.

Send a bottle of SCOTT'S to a relative or friend in the service.

Scott & Bown, Toronto, Ont. 17-18

aron. Secretary-Treasurer of the Association, or President A. W. Sharp.

FUNERAL OF HILL KENT

The funeral of the late Hill Kent took place on Sunday last and was attended by a very large number of friends of the family. The services were conducted by Rev. M. White, assisted by Rev. H. Asister. The Woodmen, of which order deceased was a member, turned out in a body to pay their last honors to their departed brother. Floral offerings were received from many friends, and Mr. and Mrs. Kent and family wish to thank all those who so kindly assisted them in their time of sorrow.

CLIVE MEETING POSTPONED TO MARCH 12

A public meeting, to be held under the auspices of the Clive Women's Institute, will be held in Brereton's Hall, Clive on Tuesday March 12, to discuss the question of consolidated Schools. A speaker from the Department of Education will address the meeting, and all interested are requested to attend. The chair will be taken at 3 o'clock by Mrs. W. Allison.

CURLERS AT RED DEER

Several of our local curling fans are participating in the Red Deer Bontspiel. The Trimble rink winners in the Visitor's Competition, at Edmonton, is in the running and expects to bring home most of the jewelry.

CREAMERY CHANGES HANDS

A. Urquhart and Co. have disposed of the Lacombe Creamery to D. Morkeberg Creamery Co., and the new firm are now in possession. The Morkeberg Co. operate five creameries on this line of railway and is one of the largest creamery operators in the Province. The local manager is W. Hansen, a butter maker of wide experience, and who for the past five years has had charge of the Innisfail creamery.

PTE LIGGINS WELL THOUGH PRISONER

Further news from Pte Russell Liggins, who left Edmonton with the Sportsmen's battalion, and who was taken prisoner during the Passchendaele fighting, has been obtained by his wife. Pte Liggins got word through to his uncle in England he was well, though a prisoner in Germany. The young man is an Alberta born boy and spent the greater part of his life in Leduc.

MOVIES RAISE A LITTLE

The Rex management has stood the high prices for a long time without a murmur, but it has now got to the point where there must be a little advance in admission fee. On Saturday night next, and until further notice, adults will pay 5 cents more to see show that is twenty cents; "Children will still be admitted for ten cents. The raise is necessary, and has been made in the cities and all other towns in the Province. The management will be pleased to reduce the price again, just as soon as things become normal.

THE EVIL WOMEN DO

The life of a Parisian adventurer formed the basis of Emil Gabrior's best selling novel, "The Claque of Gold." Two unscrupulous assistant plotters completed the trio of villainy, and their evil deeds constituted many chapters of sensational reading. To supply the demands of present-day theatregoers for thrills and excitement, Bluebird Photoplays have adapted the Gabrior story to the screen and the result will be presented at the Rex Theatre on Thursday Red Cross Night under the title of "The Evil Women Do." Elsie Jane Wilson, Franchella Billington, Rupert Julian Douglas Gerard and Hubert Henely will be the principal players. Nelson Gourlay will have charge of the music.

A MILLION FOR MARY

The Rex has secured a good one for next Saturday and Monday evenings "A Million for Mary," a fascinating combination of beautiful pathos and hilarious comedy, made possible by the versatility of the two premier comedians "William Colb and Max Dell." These comedians are the greatest in the picture world, and in their interpretation of "A Million for Mary," they are at their best. Remember this funny show will be at the Rex on Saturday and Monday next. Do Not Miss it.

LOCHINVAR NEWS

An interesting ceremony took place in the L.O.B.A. Hall, Lochinvar on the 14th inst. The occasion being the dedication of the Hall. The ceremony was performed by Sister Dan Alton, Junior Grand Mistress, and Sister Hory W.M. of Lady Strathcona Lodge Edmonton. After the dedication speeches, there were several speeches by members of L.O.L. and L.O.B.A., and also by Sister Hory, who gave a very instructive talk on the aims and principles of the order, and an outline of the good work the lodge is doing in Canada. She also made the Queen Mary Lodge of Lochinvar, feel very proud of themselves, by informing them that they had the distinction of having the first L.O.B.A. Hall erected and owned by the members of the Lodge in Canada.

Wood sawing is the order of the day in Lochinvar now. By the size of the wood piles Jack Frost may as well quit for this season. The Red Cross meeting on the 23rd will be held at the home of Mr. and Mrs. J. I. Frizzell.

BABY OSBORNE AT THE REX

Another wonder-picture featuring the Baby Bernhardt, world's youngest groom dispenser, the creator of a million smiles, Baby Marie Osborne, Pathe's five year old star, is to be seen here on Tuesday and Wednesday next. It is called "Sunshine and Gold" and tells the story of a little girl kidnapped by gypsies. The splendid supporting cast includes Henry King, who directed the picture at the Balboa Studio in California, Daniel Giffether and Neil Hardin.

ANOTHER GRAIN THIEF

There has been a considerable quantity of grain stolen through-out Pleasant Valley this winter, and Detective Scott was sent down there this week to try and locate the guilty parties. He was not long on the scene before he arrested J. Joslyn, and charged him with stealing a load of oats from J. H. Grose. He brought him before the local magistrates, and the prisoner received three months at hard labor at Fort Saskatchewan. Detective Scott is now working on some cases in Canyon district, and is hot on the trail of some grain thieves down there.

SEED GRAIN DISTRIBUTION

The Government of Alberta purposes an Act at the present session of the Legislature empowering the Municipalities and Local Improvement districts throughout the Province to supply seed grain to farmers in their Municipalities or Local Improvement District who have been hauled out, or whose grain was killed by drought during the past year. The Government will arrange to endorse these Municipalities and Local Improvement districts at some Chartered bank to obtain the money at reasonable rates, the Municipality or Local Improvement District to receive the applications for seed grain and distribute the same, take the notes for it and make the collections when due.

The difficulty in the past with the distribution of seed grain has been the cost of collection for the same over so wide an area as the entire area of Alberta. With each Municipality or Local Improvement district having charge of this matter the Secretary of this Local unit will be in close touch with the farmer who receives seed grain and can attend to both the distribution and the collection at a minimum cost. The Seed grain Branch of the Dominion Department of Agriculture has purchased of seed grain throughout the Province of Alberta and have this grain now stored in the Dominion Elevator. The purchase and distribution of it is in charge of Mr. A. E. Wilson, of the Dominion seed Branch, Regina Sask. The Secretary of each Municipality or Local Improvement District as soon as he ascertains how much seed grain is required in his district will notify Mr. Wilson and he will arrange for the delivery of same. In the meantime, any Secretary of a Rural Municipality or a Local Improvement District who will write to Mr. Wilson at Regina will get from him a circular giving the prices at which the Dominion Government will sell this seed grain, their proposition being to deliver it to the farmer as nearly as possible at cost.

In the parts of the province outside the Rural Municipalities and Local Improvement Districts the

Seed Branch of the Provincial Department of Agriculture will arrange to supply seed grain to farmers whose crop has been so damaged during the year 1917 that they have not sufficient good seed to sow. It is important that farmers who require seed grain should communicate at once with the Secretary of their Rural Municipality or Local Improvement District letting them know their wants and as soon as the Legislature resumes its session the necessary legislation will be introduced.
